

SSL VPN Installation Guide

Remote access quick reference guide

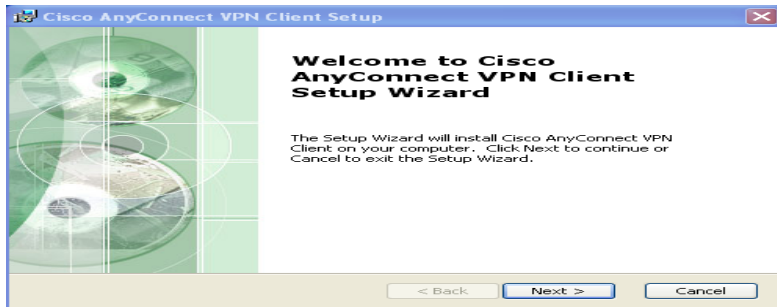

For Windows and Mac OS X Operating Systems Only

User quick reference guide to install and configure SSL VPN remote access client.

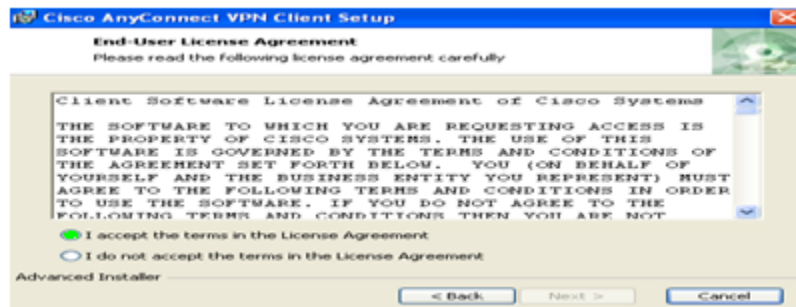

City of Dunwoody

SSL VPN Manual Install Guide

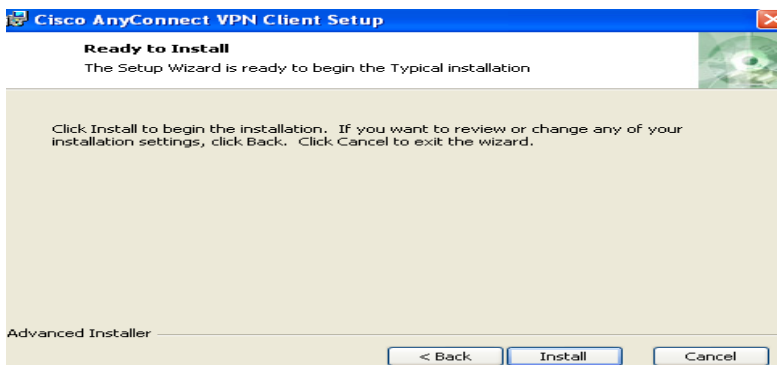

Navigate to: <https://vpn.dunwoodyga.gov/> to start the Dunwoody SSL VPN installation process.

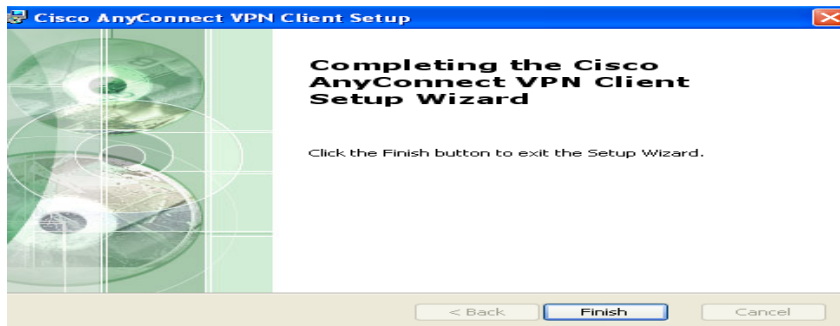

Click **Next** and continue to follow prompts.

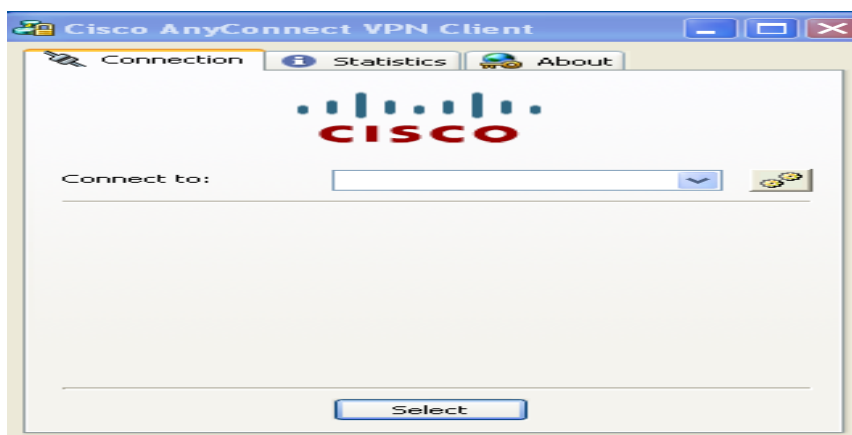

Select radio button (I accept the terms in the License Agreement)

Click **Install** and continue to follow prompts. Click **Yes** at all prompts related to security certificate validation, as this may vary depending on your operating system and network configurations.

Click **Finish** and continue to follow prompts.

In the Connect to field enter: **vpn.dunwoodyga.gov**; then click **Select**. You will be prompted for user credentials, enter your City of Dunwoody Windows login ID and password. Example: **Jane.Dunwoody**

Once the user id and password are entered, confirm that you are connected to the internet and click the **Connect** button.
