## INTERSECTION PROJECT- SPALDING DRIVE AT CHAMBLEE-DUNWOODY ROAD/SPENDER TRACE/SPALDING CLUB COURT - PUBLIC MEETING

The City of Dunwoody will be hosting a public meeting for the proposed intersection project at Spalding Drive at Chamblee-Dunwoody Road/Spender Trace/Spalding Club Court on Tuesday, February 25, 2014 from 6:00 p.m. to 8:00 p.m. at New Apostolic Church, 5477 Roberts Drive, Dunwoody, Georgia 30338.

The intersection at Spalding Drive Chamblee-Dunwoody/Spender Trace/Spalding Club Court has been identified in the City of Dunwoody's Comprehensive Transportation Plan as a high priority project due to its current poor safety and low level of service. The current intersection provides a junction of five roadway legs. This intersection lacks adequate turn lanes, visibility, sight distance, and way finding. Furthermore, it remains inadequate in accommodating safe use by non-motorized users. It is the goal of this project to correct these deficiencies and improve the safety and operations of this intersection.

At the Public Meeting, a brief presentation will be provided by City Staff to provide project background, viable intersection concepts, and other project components. Immediately following this presentation, the concept displays will be available for viewing. During this time, City of Dunwoody representatives will be available to answer questions and receive your feedback. While many design aspects of this project have already been considered, it is still in its early design stages when modifications may be applied. The dialogue between the City and the public is critical to determine the best solution for this and other projects, so please plan to attend.
